

August 1, 2010

Parents,

Many of our students have asked our school resource officer or someone in our maintenance department to help them open their vehicles because they left their keys inside. Because this has become a significant problem, the school district and sheriff's office must have a signed waiver in the student's file before we can attempt to unlock the vehicle. If your child drives to school and you would appreciate the help, please sign the waiver below.

Park County Sheriff's Office/Platte Canyon High School Waiver

I understand if any deputy/officer of the PCSO or any employee of the Platte Canyon School District attempts to unlock my car for me, damages could occur. I acknowledge this and will not hold the school district and/or the sheriff's office responsible for any damage that might incur while attempting to unlock the vehicle.

I agree that I have asked for help because I have left my keys locked inside my car and did not want to call a locksmith.

I waive and will not hold the Park County Sheriff's Office or Platte Canyon School District responsible or liable for any damages that might incur while attempting to unlock my vehicle.
